There is not an abler lawyer in the South But, instead of following this safe and constitutional method, he has pursued a systematic plan for the adjustment of these most important matters, the manifest effect and object of which are to exclude Congress from having any lot or part in the settlement. He seems, indeed, to have determined to accomplish it in a spirit at once opposed to the interests of the people who, by their courage, perseverence, and sacrifice, have crushed the Rebellion and preserved the Government, and to the principles of the Govern-ment itself. With a busy activity he has labored to complicate the work of reconstruction by laying so many hindrances in the form of accomplished facts, in the way of the action of Congress toward the accomplishment of the final and proper adjustment of our national affairs, on its own previously announced principle—a principle securing the right of freedom to all. In this way he seems to have aimed at placing beyond the power of Congress to establish on just principles what he has thus already poiled. By pursuing his own impracticaole and ruinous scheme, he has given the ie to all his former professions; has mocked at and insulted justice and law, degraded the dignity of his great office, and is, as far as he can, restoring to all their former rights the still unrepentant enemies of the Repubic, and arming them anew with power as if t were his purpose to reconstruct, not the Republic but the Rebellion. The pardoning power, designed as a means to mitigate ustice, for the public interest, has, in his hands become a means to abolish justice for the public ruin. No rebel, however black his treason, or atrocious his barbarity, has been excluded from his favor, while the negro, whose faithful attachment and courageous and selt sacrificing spirit has contributed greatly to save the Reputlic, is, so far as the President has been able, still kept down in Senator Sprague, of Rhode Island, who Chairman of the Committee of Manuscripters, and himself one of the most exhausters, and himself one of the most exhausters cheated of an the legitimate fruits of their enormous sacrifice, as if the fearful war had only been conducted to show which hen would need at first along.
